- O'Level

# Ayush Dwivedi

## Frontend Developer(React)

### PROFESSIONAL SUMMARY

Astute front-end developer with proven expertise in JavaScript and React.js. Demonstrates strong problem-solving, teamwork, and adaptability skills. Quick learner, adept at employing Generative AI for innovative solutions and mastering new tech stacks swiftly. Consistently delivers high-quality, responsive, and scalable user interfaces.

### PROJECTS

#### 1. BestBuy.com | |

JavaScript | HTML5 | CSS3 | DOM | Git

- Developed an online shopping platform featuring a wide range of products including groceries, electronics, and clothing.
- Implemented key features such as Add to Cart, Sign In/Sign Out, Create Account, Slider, Sub-navbar, Grid, and Flex for better user interactions.
- Completed the project individually within a 10-day timeframe utilizing JavaScript, HTML5, and CSS3.

#### 2. Himalaya Store Clone | |

React | JavaScript | HTML5 | CSS3 | Git | Chakra UI

- Developed functional and visually appealing user interfaces for an e-commerce platform using React.js and Chakra UI.
- Integrated frontend components with JSON-Server to simulate API interactions and ensure smooth data handling.
- Utilized Axios for efficient HTTP requests, improving the speed and reliability of data interactions.

#### 3. Youtube.com | |

React | JavaScript | Git | Responsive Web Design | HTML5 | CSS3 | YouTube API | Tailwind CSS

- Developed a YouTube clone using React and Tailwind CSS, adhering to modern design principles.
- Implemented a search bar feature to fetch and display videos from various categories using the YouTube API.
- Provided real-time view counts, likes, and related videos to enhance user engagement.
- Ensured the application was fully responsive, optimizing performance across multiple devices and browsers.

### WORK EXPERIENCE

#### Codsoft

Front-End Developer Intern | October 2023 - November 2023

#### Job responsibilities:

- Drove end-to-end feature development to enhance user experience.
- Developed a dynamic portfolio website using HTML, CSS, and JavaScript.
- Built responsive and interactive applications with a focus on usability.
