Ayush Dwivedi

Frontend Developer(React)

PROFESSIONAL SUMMARY

Innovative front-end developer with strong proficiency in JavaScript and React.js. Skilled in developing responsive designs and integrating front-end components with RESTful APIs. Quick to learn new technologies, including Generative AI, and adept at problem-solving, teamwork, effective communication and attention to detail.

WORK EXPERIENCE

Codsoft

| Front-End Developer | Codsoft | Remote | 10/2023–11/2023 | | October 2023 – November 2023 |

Job responsibilities:

- Spearheaded end-to-end feature development, significantly enhancing user experience.
- Created a dynamic portfolio website and calculator using HTML, CSS, and JavaScript, showcasing responsive design.
- Collaborated with a remote team to design efficient databases improving data accessibility.

PROJECTS

1. Himalaya Store Clone | ⊕ | ●
React | JavaScript | HTML5 | CSS3 | Git | Chakra UI

- Developed an e-commerce platform for browsing and purchasing Himalaya products using React and Chakra UI.
- Implemented features including Home Page, Shop Page, Cart Page, and Login Page.
- Utilized Axios for efficient HTTP requests and JSON-Server for API simulation.

2. BestBuy.com | ⊕ | ●
JavaScript | HTML5 | CSS3 | DOM | Git

- Developed a user-friendly E-commerce website for BestBuy using HTML5, CSS3, and JavaScript.
- Implemented key features such as Add to Cart, Sign In/Out, Create Account, and product sliders to enhance user experience.
- Integrated frontend components with DOM manipulation for dynamic content updates.

3. Youtube.com | ⊕ | ●
React | JavaScript | Git | Responsive Web Design | HTML5 | CSS3 | YouTube API | Tailwind CSS

- Developed a YouTube clone using React and Tailwind CSS, creating a functional and visually appealing user interface.
- Implemented a search bar to fetch videos of different categories with real-time data from the YouTube API.
- Provided features such as real-time view counts, likes, and related videos to enhance user engagement and interaction.
